To Whom It May Concern:

I am pleased to write this recommendation on behalf of Tara Hutchens. I have known Tara as a student teacher at North Shelby High School for one year; however, I met Tara several years ago through mutual friends and our kids playing sports.

Tara has observed math classes at North Shelby for the last two years. As a student teacher this semester, she took over teaching seventh and eighth grade math and two sections of Algebra II. In addition, Tara has attended all professional development meetings and faculty meetings. Tara is a team player and fits in quite well at North Shelby.

Tara has used Cooperative Learning and Google Classroom with her students and implemented the Flipped Classroom technique. Tara uses a variety of technology, and the classroom is neat and organized.

If you have any questions, feel free to contact me. Thank you for considering Tara Hutchens as a potential teacher in your district.

Sincerely,

*Kerri Greenwell*
