Dear school administration/school board member(s),

I am happy to provide this letter of recommendation to you on behalf of Tara Hutchens.

Tara is a conscientious educator in the classroom. She produces lesson plans according to the 2016 MLS math standards while considering prior knowledge and varying abilities of the students she is educating. To change up the pace of note taking, she implements activities that reinforce the math content students are learning. Tara truly cares for students, both academically as well as their general growth as adolescents. She is professional in her mannerisms as well as appearance. She maintains classroom management with ease and students enjoy her as an educator. Tara has many years of experience as an educator and desires to improve her instruction through approaches including, but not limited to, the flipped classroom. I have no reservation in stating that Tara will be an asset to students, staff, administration and community where she is hired as a math educator.

Thank you for your time in reading this letter of recommendation. I hope it has provided you with information that will assist you in considering Tara Hutchens for the teaching position in your district.

Sincerely,

A rectangular image showing a handwritten signature in cursive script that reads "Renee Shinn". The signature is written in dark ink on a light-colored, textured background.
